PROFESSIONAL SUMMARY

As a software developer, I have a strong interest in using Java, C++, and Spring Boot to create practical applications. I like using clear, effective code to solve problems, and I am proficient in database integration, REST APIs, and backend development. Through projects and exposure to fintech, I've developed my ability to work in teams, adapt fast, and produce scalable, impactful solutions while always honing my craft.

SKILLS

| PROFESSIONAL

Team Building
Problem Solving
Decision Making

| TECHNICAL

Java, C++
Spring MVC, Servlet
Spring Boot, JPA, REST API
SQL, JDBC
HTML, CSS

EDUCATION

| MASTER OF COMPUTER APPLICATION

Manipal University Online,
Jaipur | 2025 - 2025

| BACHELOR OF COMPUTER APPLICATION

Guru Gobind Singh Indraprastha
University, DELHI | 2022 - 2025

CERTIFICATE

GeeksforGeeks JAVA Backend
Development - [VIEW NOW](#)

PROJECTS

WEATHER APPLICATION

Aug 2025 | [View Project](#)

Developed a Spring Boot REST API that offers multi-day forecasts and real-time weather data for any location. The application provides scalable backend services with a clean modular design and dependable testing, and it was developed using Java 21, Spring Boot 3.5.4, Maven, Lombok, and JUnit.

NEWS APPLICATION

Aug 2025 | [View Project](#)

Using Spring Boot, I developed a RESTful news aggregation API that retrieves articles from external APIs and delivers them via endpoints according to date and topic. In order to create clean, maintainable code, the system integrates RestTemplate and Lombok with a layered architecture consisting of Controller, Service, DTO, and Model.

GARAGE MANAGEMENT SYSTEM

July 2025 | [View Project](#)

Developed a Java console application using MySQL and JDBC to handle clients, cars, maintenance, and bills in a garage setting. The menu-driven system streamlines and improves daily operations by supporting vehicle registration, service catalog management, invoice generation, and service history retrieval.

Work Experience

Software Development Engineer (SDE)

Bluestock Fintech | May 2025 - July 2025

Gained hands-on experience in **software development within the fintech domain**, sharpening technical skills and applying them to real-world applications. Designed and implemented **robust RESTful APIs** to power core application functionalities, ensuring scalability and reliability in a fast-paced environment.
